PROJECTS (ANGULAR / .NET)

Product Management Dashboard (IMAJI COFFEE)

An admin dashboard designed for managing products just as an e-commerce platform. The system includes features to list, edit, activate/deactivate, filter, and register new products, with full API integration and a clean, modern UI.

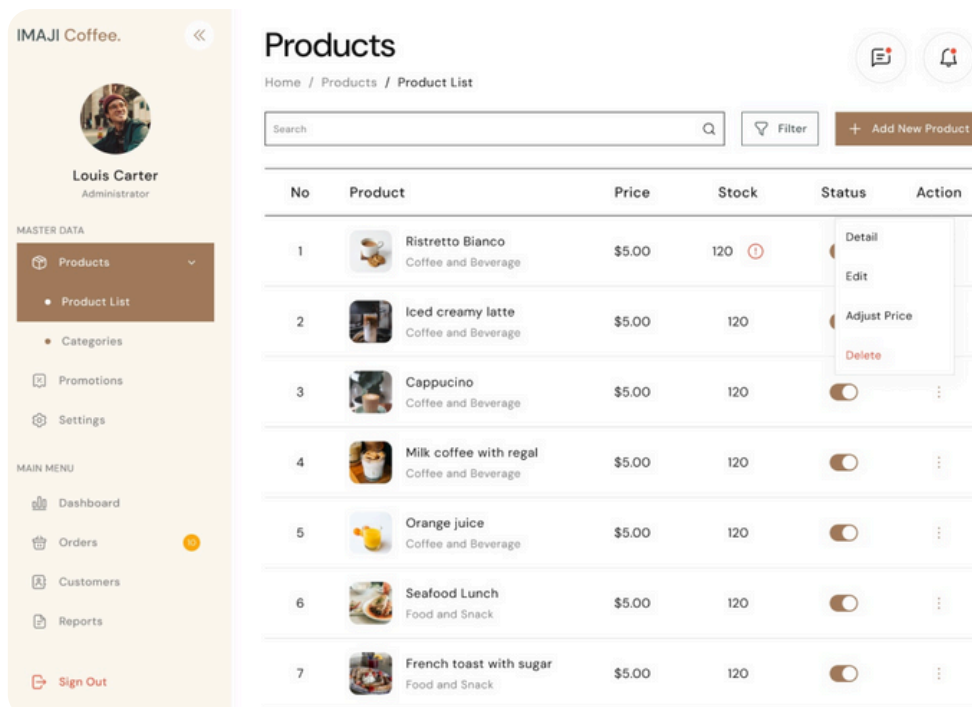

Technical Responsibilities:

- Developed the entire frontend using Angular, focusing on responsiveness and intuitive UX.
- Created a modular Design System with reusable UI components (buttons, tables, inputs, modals, dropdowns, etc.).
- Built and integrated the backend using .NET Web API, applying Clean Architecture and dependency injection.
- Implemented JWT-based authentication, including route guards and HTTP interceptors in Angular.
- Used PostgreSQL as the database, with migrations and schema control through Entity Framework.
- Configured CI/CD pipelines with GitHub Actions to enable automatic build and deploy on every push to main.
- Managed code versioning and collaboration with Git following Git Flow best practices.

Main stack: Angular (18v), .NET, JWT, Cypress, xUnit, Moq, TailwindCSS and SCSS for specific situations, Entity Framework and SQLserver.

Fernando Lima
 Psiquiatra Clínico

"Meu caso gerou muita reflexão e eu, na prática, posso ajudar, realmente, com o que eu quero."

Luciana Freitas
 Tratamento de Melanoma

"Exatamente encontrar um tratamento que funcionou para os meus dois tumores e que não afetou a minha vida. Foi super atenciosa e cuidadosa durante todo o processo."

Bianca Costa
 Ps. de 100 e 120 e 130mg/Litros

"Faltava eu monitorado para eu ficar de 1000 a 2000 e para ficar mais firme e equilibrada. Além disso, a abordagem foi ótima e maravilhosa, me sinto muito mais leve e menos inchada."

Rafael Martins
 Resposta

"Eu estava inseguro há anos com meu nariz... Mas na Kofu Clinic encontrei profissionais que atenderam exatamente o que eu queria. O resultado ficou natural e a gente ficou!"
